Drummond Study Centre is an educational project for young men from high school through to university level. The aim of all our activities is to help these young men complete their human and Christian formation, and to take up a life of virtue.

The spiritual care of Drummond has been entrusted to Opus Dei, a personal prelature of the Catholic Church.

# About the Camp

The Summer Camp is a five day competition with sports, challenges, night games and more. In addition to these activities there will be talks on the Catholic faith and human virtues. It provides the boys with an opportunity to form friendships in an environment that reflects the atmosphere and values of the family home.

The camp is open to boys who are entering years 7, 8 and 9 in 2013.
